

UNESCO King Hamad Bin Isa Al -

2023 theme

The 2023 edition of the Prize will focus on the theme “

to acquire the knowledge, values and skills to tackle climate disruption and promote sustainable development. By encouraging synergies between public digital learning and green education, and by showcasing best practices in this field, this edition of the Prize addresses several priority areas identified at the Transforming Education Summit that took place in 2022.

Who can apply?

Individuals, institutions, non-governmental organizations or other entities

Eligibility criteria

- x The project is in line with the objectives of the Prize and is relevant to the theme of the year
- x The project should be ongoing for at least 1 year
- x The project and its organization should not be affiliated with UNESCO or receive any funding from UNESCO

- x The project should be public and free of charge

Selection criteria

- x Appropriateness of digital solutions: The project is backed by needs assessment and applies fit-for-purpose technologies to provide safe, inclusive and robust tools
- x Pedagogy innovation: The project adopts pedagogical methodologies adapted for climate education to facilitate digital learning and learner engagement
- x Inclusion and equity: The project should advance inclusion and equity in education while taking into account marginalized groups, minorities, and learners with different abilities
- x Evidence of impact: The project should provide evidence of impact on learners reached and pre-set learning outcomes
- x Potential for replicability and scalability: The project should show evidence that it can be replicated in other contexts or have the potential to further optimize and scale its impact

NOTE: The Prize is not a grant scheme to support new projects or organizations. The Prize is aimed at recognizing already implemented projects and activities or individuals/institutions/
